

Works with any
Windows PCs*
ideal for laptop

Free The Connection Between Your PC And HDTV

Wireless PC-to-TV 1080p HD Transmission Kit **ZIN-2100**

The most affordable way to wirelessly stream anything from your laptop straight to your HDTV with up to 1080p HD video quality.

**PC-to-TV HD Mirroring mode;
works with any Windows PCs**

With USB transmitter, the ZIN-2100 can plug into any Windows PCs and is capable of delivering online contents to your HDTV without any limitation.!

**Push-to-TV mode; works with your
smartphone, tablet, and Windows 7**

The ZIN-2100 can stream your 1080p local media files from your smartphone, tablet, or Windows 7 PC to your HDTV wirelessly.

Transmission range up to 10 meters

Whole room coverage: stream the video from your laptop placed anywhere within the room.

Support wireless keyboard and mouse

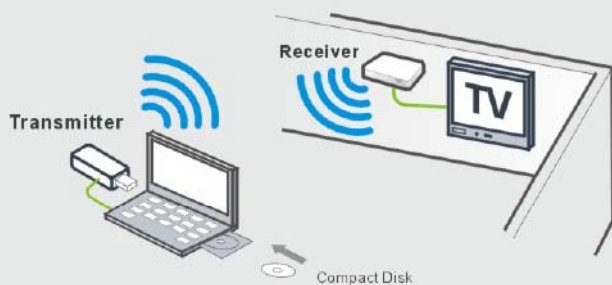

Thanks for USB HID: the ZIN-2100 can connect and operate your keyboard and mouse in front of your HDTV without connecting to your laptop directly.

* Transmission distance will depend on actual environment

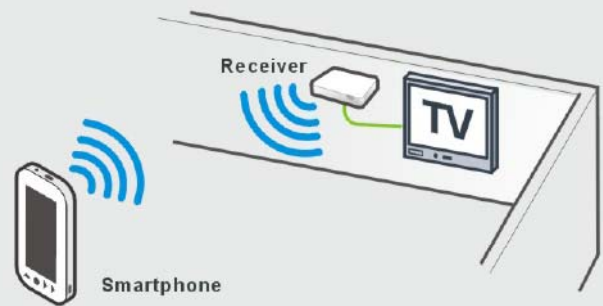

How does PC-to-TV wireless work?

- Install the ZIN-2100 software
- Plug the USB transmitter into your laptop
- Plug the wireless receiver into your HDTV
- Run the ZIN-2100 software on your laptop

How does Push-to-TV wireless work?

- Download App to your smartphone or tablet
- Plug the wireless receiver into your HDTV
- Run the Apps on your smartphone or tablet

Why choose ZIN-2100?

- Support up to 1080p @ 30Hz video quality
- Work with any Windows PC, no limited to WiDi enabled PCs
- Easy-to-use: transmitter and receiver will automatically detect each other
- Support DLNA 1.5 DMR; stream local media files from any DLNA enabled devices to the HDTV
- FCC & CE certified; meet requirement for environmental safety
- USB port for possible future firmware upgrade

Specifications

Receiver

General Specifications (PC-to-TV Wireless)			
Supported Video Resolutions		1920x1080 @up to 30Hz, 1280x720, 1024x768, 1025x576, 800x600, 720x480	
Supported Audio Formats		PCM	
Transmission Distance		The maximum video transmission range is up to 10 meters (33 feet)*. Actual transmission distance will depend on actual environment	
Protocol Used		WiFi IEEE 802.11 n and USB HID	
Power Supply		100 ~ 240V AC in, 5V @1.5A power adapter	
Operating Temperature		0 ~ 40 C	
Physical	USB Input	One	N/A
Interface	HDMI Output	N/A	One
Power Interface	Power Input	N/A	5V DC power adapter
Switches	Power Switch	N/A	Yes
USB HID Control		N/A	
Dimensions (W) x (L) x (H)		18 (W) x 60 (L) x 8.5 (H) mm	
		80 (W) x 130 (L) x 27 (H) mm	
CPU		Requires Intel Core2Duo 2.0GHz, or greater	
Chipset		Intel 965 series or greater	
Memory		DDR2-800, 1GB or better	
Operating System		Windows 7 (x86 or x64 version) Recommended, Windows Vista: service pack 1 or later (x86 or x64 version), Windows XP: service pack 3 or later	
Notes		*1080p HD Mirroring requires Intel SandyBridge CPU or greater Limited to resolution 1280x720 or 1024x768 of TV and PC when PC doesn't support the above resolution.	

General Specifications (Push-to-TV Wireless)			
Supported Video Resolutions		Up to 1080p (1920x1080)	
Protocol Used		WiFi IEEE 802.11 n @ 2.4GHz and DLNA 1.5 DMR	
Supported Formats		Video	MPEG 1/2, MPEG-TS, MP4, AVI, 3GP, WMV, MOV, DVR-MS
		Audio	MP3, AAC, WMA, WAV, OGG, PCM, LPCM, MP4
