plugCAM nano
Powerline Camera Kit

HD Be there while you are not there

Camera has wide-angle lens with 720p HD video, lets you watch video that is so clear, it seems like you are in the same room.

Just fold it anytime while you don't want to be disrupted
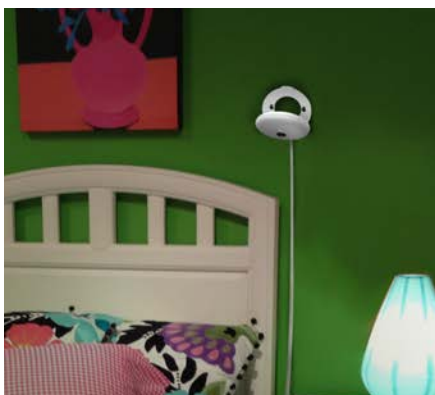

PoE

Combines power and Internet into one

Camera combines power cord and Ethernet cable into one. You can simply plug adapter into wall outlet to finish installation.

Ambiance is under controlled

Temperature, voice, and light. All of them can be monitored through your smartphone. It's your call.

Stay informed 24/7

Alerts can be set up to send you a notification to your smartphone. Whenever what's happening in a room, you will be the first to be informed.
