

plugCAM 2

Powerline HD Network Camera

Wireless HD Network Camera

*Stay connected with your loved one
anywhere. anytime.*

Only available for PCQ-700

❖ Powerline Networking Camera (PCQ-700)

500 Mbps Powerline network allows for more stable, longer-range deployment.

❖ HD Video Stream

H.264 codec technology ensures smooth HD video viewing.

❖ Keep You Informed 24/7

Automatically send notification to your mobile device whenever camera detects motion.

❖ Home Monitoring on The Go

View live video in your house or office via Internet or 3G enabled device such as smartphone or tablet.

❖ Easy of Setup

Complete installation within a minute... and you are done.

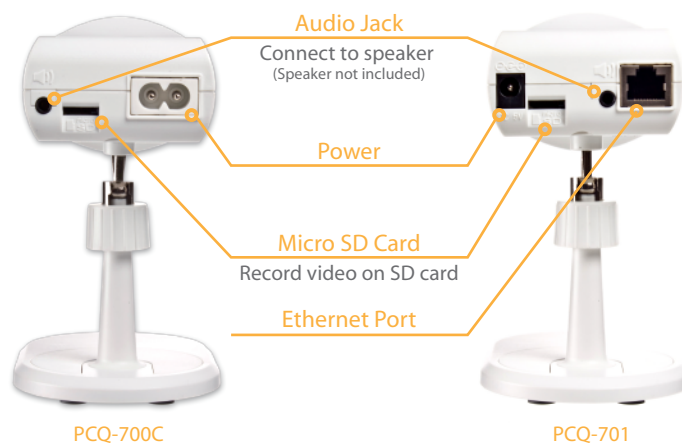

Step 1

Plug PLC adapter to AC outlet and connect to router or broadband modem with an Ethernet cable (provided).

Step 2

Plug plugCAM cameras onto wall outlet anywhere in the house to finish installation. Then, PLC adapter and all cameras will automatically detect and connect.

❖ What's on plugCAM 2
