1 The Best High-Definition Media Player for 1080p Video Playback

ZIN-5005HD mini is an advanced multimedia networkable player that brings the high-definition video to 1080p full HD display.

2 Support Multiple Formats

ZIN-5005HD mini supports the most popular video/audio/image formats, such as MPEG1/2/4, H.264, Xvid, WMV, VC-1, RM/RMVB (up to 720@30 Hz), ISO, IFO, VOB, MP3, Dolby Digital, DTS, WMA, RA, HD JPEG, PNG, BMP, GIF. No media conversion software needed.

3 System Software Upgrade

To update software, users simply opt for the Online/USB software update. We will listen to your requirements and provide the best after-sales service.

4 Download and Store Media Contents with P2P Network Download Technology

With built-in P2P download engine, you can perform BT download and be independent of PC anytime with lower power consumption. Download desired media content and save into external USB devices and play directly on Large Screen TV.

5 Worldwide Live Internet TV / Radio Streaming

- A wide variety of Internet entertainment from over 200 countries updated daily.
- 3,000 Internet TV channels, including ESPN, BBC, Bloomberg, CBS, TBS and CNN...
- 10,000 Internet music channels covering over 50 genre
- Easy keyword search to quickly locate and bookmark your favorite stations

6 UPnP Client Support

ZIN-5005HD mini acts as a UPnP (Universal Plug and Play) client. It can stream and play video content from most popular Internet video website, like Netflix, Hulu, YouTube and much more. (Users need to install third party software like PlayOn or Tversity on PC firstly.)

7 Play Digital Media Files from Remote PCs or Removable Storage on TV

ZIN-5005HD mini can play movies/photos/music stored on computers through the intranet (local area network) both wired and wireless (802.11n).

In addition, you can playback contents from any removable USB/e-SATA-based storage devices to the TV directly.

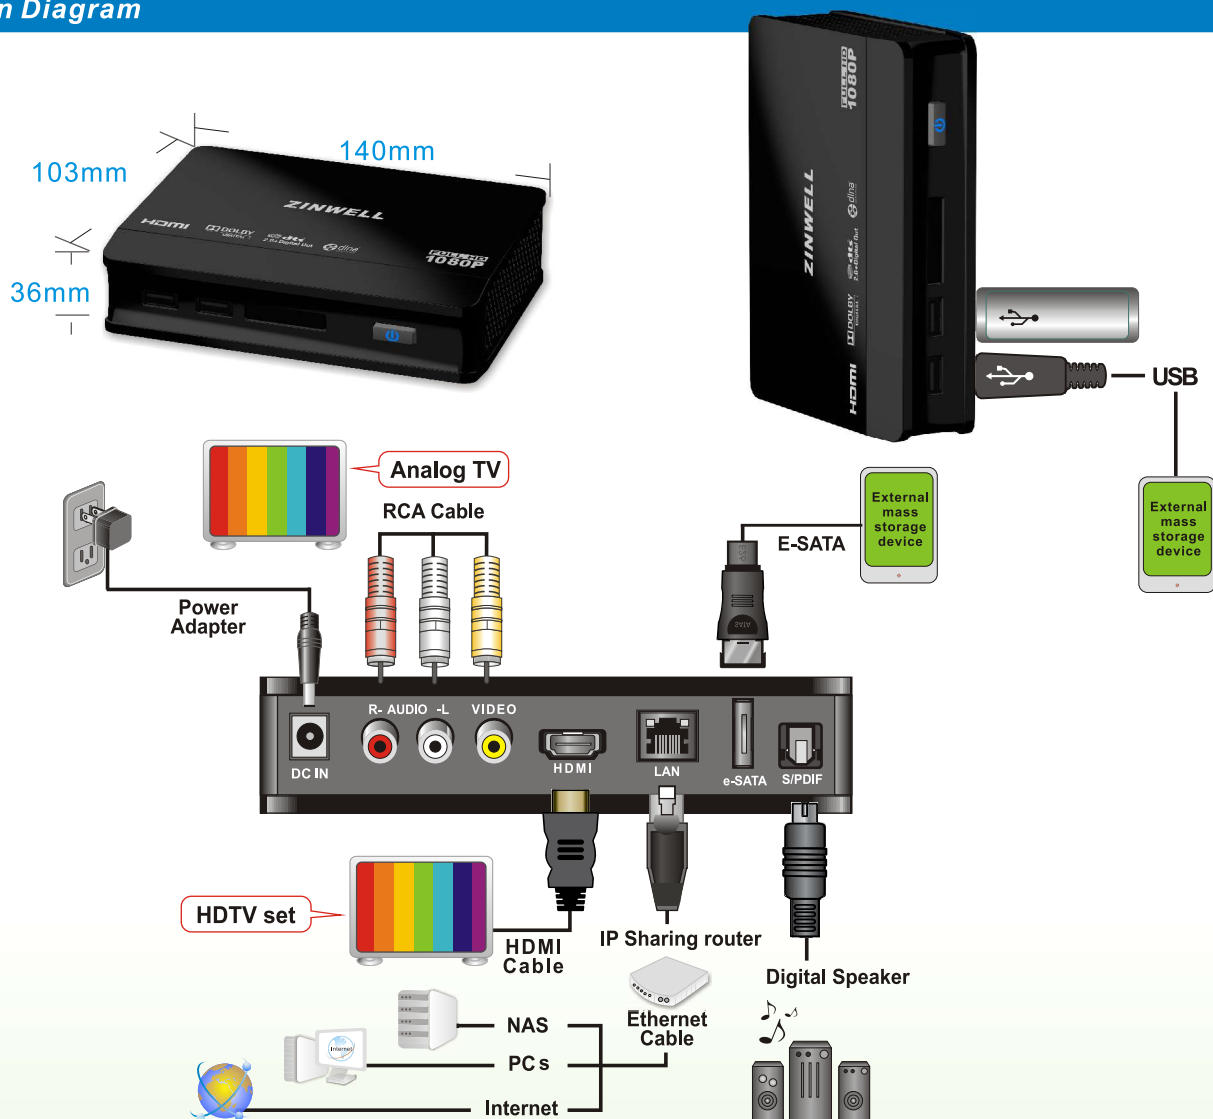

8 1080P HDMI Output

With only one HDMI cable, users can experience original 1080p video and the clarity of digital audio. Additional outputs such as Composite ensure compatibility with all TV sets.
