

# 1080p Full HD Media Player & PVR

**ZP-605BT**

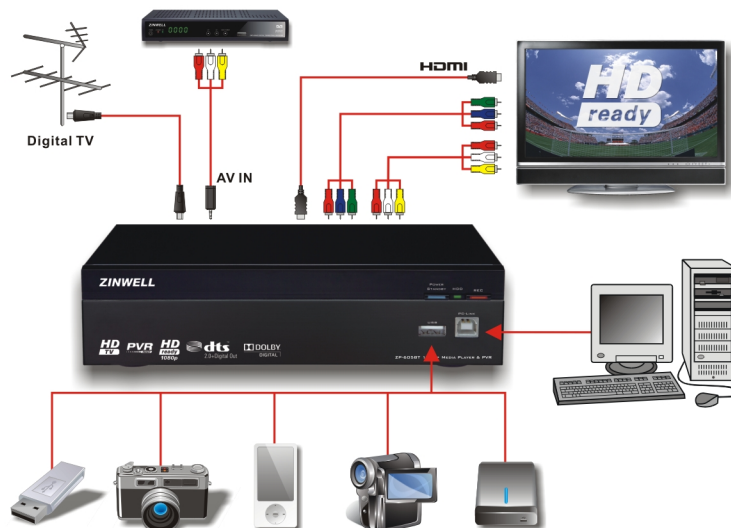

## Feature:

- Audio/Video Input Record
- Real 1080p Decode
- Timer Recording
- Timer Shifting
- Support Digital Tuner
- EPG
- DTV Recording Through EPG
- Networking Function Supports SAMBA Client, UPnP, NAS
- Supports Ethernet And 11n Wi-Fi Dongle
- Supports Karaoke Function
- Supports External USB DVD-ROM

## Technical Specifications:

| Interface             |                                                                                                                                                                                                                                                                                                                                           |
